News 2 new results for hydraulic fracturing

Encana presses EPA to hand over test results
MarketWatch
Concern over potential water contamination has led to widespread opposition to hydraulic fracturing--a process whereby companies pump a high-pressure mix of water, sand and chemicals into the ground to break open seams in the earth and release natural ...

Key Energy lowers third-quarter expectations
FuelFix (blog)
It sounds like a free-market success story: a new gas drilling boom driven by hydraulic fracturing, or fracking, which delivers a vast new source of cheap energy without the government subsidies that solar and wind power demand. But men who helped ...
